

March 6 - 11, 2017

The Erie Regional Chamber and Growth Partnership is excited to present this new event in 2017 for the Erie area! The goal of Erie Restaurant Week is to highlight the delicious, numerous, and diverse dining options in the community and throughout the region. Restaurant weeks in other cities and communities have been successful and typically designed to boost business during what is normally a slower time of the year. Participating restaurants will offer prix-fixe meals and special menus giving diners the opportunity to experience the areas dining options and not break the bank doing it!

Show your support to our fine eateries by sponsoring and getting YOUR name out there!
